

# St. Bart's Parish News & Events

**2025  
JUN 29**

## Office Administrator Away

Karen is away from June 30 to July 14 and will be back in the office on July 15. Laurel will be covering while Karen is gone. Office hours will be M-T-Th 10:30 am—1:30 pm. The last E-News was sent June 26. Next one July 17.

## Do you Shop at IGA?

Please consider helping St. Bart's with Fundraising. You can pick up an IGA "reloadable" card from the church office. Take the card to IGA, pre-pay the card with whatever amount you choose; use it for your purchases at IGA. By using the reloadable IGA card, a small percentage of the purchase will go to St. Bart's. It does not cost you anything to support St. Bart's by using the IGA card. There are lots of IGA cards available in the office! They can also be given to family and friends to use!

## Choral Evensong Sunday June 29 at 5:00 pm

Featuring works by renaissance composers Andrea Gabrieli (c.1532–1585), Orlando Gibbons (1583–1625), and Thomas Morley (1557–1602) in a collaboration between Vespersong and Suncoast Viols.

All are invited to experience some respite from modern society by plunging into the slowness of the past, contemplating the beauty still extant today, and hoping for brightness in the future to overcome the dark.

Pender Harbour Community Church, 13625 SC Hwy, Madeira Park

## **St. Bart's Organic Produce Garden Project:**

## *Plant, Grow, Harvest & Share*

**PROGRESS TO DATE:** There are now six beds built on the strip running by the kitchen. Monday morning, Dixie levelled four of them with Niko's help and Penny lined them with cardboard, garden cloth and free tarps from GBS. Did you know GBS has a tarp bin that people can help themselves to for free? Dixie is due to prep the last two and Penny will line them also. Thank you to Harvey for his help as well!

In the meantime, the soil Helen ordered arrived from Salish Soils and is also covered with a free tarp in case it rains before Thursday, when we'll fill the beds.

The bear poop found behind the shed is NOT fertilizer—it's a reminder that our bear will be monitoring the garden beds along with the rest of us. As Helen says, "he'll go wherever we put the beds." We just have to expect that we might lose a bit of produce. However, this is our first go at our own garden so we'll assess any damage in the fall, and plan the next year accordingly.

Next on the list: an animal barrier around the beds, of course!
